

Teen Reality Fair

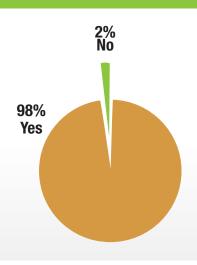

What did the students learn?

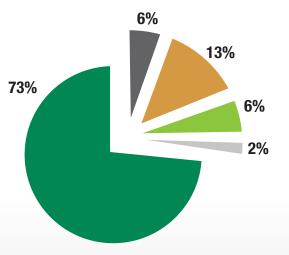

Thank you for volunteering to create such a great event for Chicopee and Springfield high school students!

Will what you learned today help you in the future?

I think the real purpose of the Teen Reality Fair is to:

- Show me that there are many different options for spending my money.
- Teach me how to prioritize bills and spending.
- Teach me about credit and how to use it responsibly.
- Teach me about the importance of credit scores and how I can improve my own score.
- Give me an idea of how expensive things are.
- All the of above.

Is budgeting important?
